

VAIDEHI TALEKAR

AI/ML Engineer | Generative AI • NLP • Python • Model Development

7350702277 | tvaidehi305@gmail.com | linkedin.com/in/vaidehi-talekar | github.com/Vaidehi1205 | Ratnagiri, Maharashtra

PROFESSIONAL SUMMARY

Information Technology graduate with hands-on experience building agentic AI workflows, NLP-based systems, and generative AI applications. Skilled in Python, model development, and API integration, with a solid foundation in object-oriented programming and REST API design. Combines internship experience in AI-driven automation and frontend development with a strong record of self-driven certifications spanning generative AI, NLP, and data science. Seeking to apply AI/ML skills as a Junior AI/ML Designer to build and deploy intelligent, production-ready systems.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, SQL, HTML5, CSS3

AI / ML & Generative AI: Agentic AI Workflows, NLP, Generative AI, LLM API Integration, Scikit-learn, Model Development & Evaluation

Frameworks & Libraries: Flask, React.js, Node.js, Express.js, Pandas

Databases: MySQL, MongoDB, SQL Server

Core Concepts & Tools: OOP, REST APIs, Data Structures, Data Visualization & Analysis, Git/GitHub, Excel

INTERNSHIP EXPERIENCE

Student Intern — Lenovo India *Jun 2026 – Jul 2026*

Focus: Agentic AI Development & Agentic Workflows

- Built and tested agentic AI workflows, applying OOP principles to design modular, reusable AI components
- Collaborated with engineering teams to integrate AI-driven automation into existing software processes

Intern, Frontend Developer — Uptricks Services Pvt. Ltd. *Dec 2025 – Feb 2026*

- Developed responsive user interfaces using HTML5 and CSS3, translating design mockups into functional pages
- Worked with product and design teams to implement UI features end-to-end and improve usability

AI / ML PROJECTS

HireSense AI (Resume Analyser) — Python · NLP · Scikit-learn

- Built an NLP-based resume screening platform that evaluates candidate–job fit and generates explainable, ATS-style relevance scores
- Designed the system architecture for recruiter-facing workflows, including score breakdowns and candidate ranking

Generative AI Chatbot — Python · OpenAI API · LLM Integration

- Developed a context-aware chatbot for technical and general conversations by integrating an external LLM API and managing multi-turn conversation state

AI Image Generator — React · JavaScript · Generative AI

- Built a generative AI web application that creates images from user prompts in real time via an AI API

Movie Review Analysis — Python · Machine Learning · Pandas

- Built a machine learning model for movie review sentiment prediction and result visualization

CERTIFICATIONS

- Getting Started with Artificial Intelligence — IBM (2025)
- Introduction to Generative AI Studio — Simplilearn (2025)
- Introduction to Data Science — Cisco Networking Academy (2025)
- CSRBOX: Turning Data into Decisions using Python 2024–2025 — IBM SkillsBuild (2024)
- Data Analysis: Investigate with SQL — LinkedIn Learning (2025)
- Learning Data Visualization — LinkedIn Learning (2025)
- Database and SQL — Infosys Springboard (2025)
- Data Analyst Certification — OneRoadmap (2025)
- Accenture Nordics – Software Engineering Job Simulation — Forage (2025)

EDUCATION

Bachelor of Engineering (BE), Information Technology 2023 – Present

Finolex Academy of Management & Technology (FAMT)

Higher Secondary Certificate (HSC), Science 2021 – 2023

Kudal High School Junior College, Kudal
