PROFESSIONAL SUMMARY

Enthusiastic and detail-oriented B.E. Computer Science and Engineering graduate with a specialization in Artificial Intelligence & Machine Learning. Skilled in Python programming, data handling, and developing intelligent systems using TensorFlow and PyTorch. Experienced in computer graphics and hologram-based visualization projects, integrating AI tools to enhance automation and performance. Passionate about applying machine learning techniques to solve real-world problems, contribute to innovative product development, and grow as an AI professional in a dynamic industry environment.

EDUCATION

Bachelor of Engineering in Computer Science & Engineering(AIML)

Mumbai University • GPA: 7.78/10

CERTIFICATIONS

AI Tools and Agents • 04/2025 - 07/2025

Coursera

Agentic AI: Internship – AI Automation & Intelligent Solutions • 07/2026 - 08/2026

PROJECTS

Academia Educational Chatbot

- Developed a chatbot which provides academic related information
- Implemented accuracy of searching properly and providing a proper valid solution

Academic Research Paper Validator

- Built a search method using Python and APIs (FastAPI, DeepSeek).
- Integrated with multiple search option with reportlab modules.

TECHNICAL SKILLS

Programming Languages: C,C++, Java, Python

Machine Learning: PyTorch, Scikit-learn, TensorFlow

Databases: MySQL,SQLite

Other Skills: FastAPI, Git/GitHub, REST APIs

DSA: fundamental data structures, algorithms.

ACHIEVEMENTS

Developed a 3D holographic visualization project using AI-based recognition.

Completed an AI internship in AI Automation & Intelligent Solutions .

Certification in Python, C/C++,Data Structures and Algorithms .
