2017, Bank Colony, Opposite Garden, Tal. Kankavli, Dist. Sindhudurg - 416602

SUMMARY

Motivated and detail-oriented Computer Science and Engineering (AI & ML) student with strong skills in software development, artificial intelligence, and web technologies. Experienced in developing AI-powered applications, dashboards, and automation systems using Python, JavaScript, and machine learning tools. Passionate about problem-solving, full-stack development, and building innovative real-world solutions.

EDUCATION

B.E. Computer Science and Engineering (AI & ML)	2023 – 2027
<i>Finolex Academy of Management and Technology</i>	<i>CGPA: 8.68</i>
HSC	2021 – 2023
<i>Ideal English School and Jr. College, Kankavli</i>	
SSC	2020 – 2021
<i>S M High School, Kankavli</i>	

INTERNSHIP

Project Based AI Intern – IBM SkillsBuild & CSRBOX	Jul 2025 – Aug 2025
---	---------------------

- Completed training on Agentic AI and AI Agent Architecture.
- Built practical AI-based projects during a 4-week hands-on learning program.
- Gained hands-on experience in AI workflows, automation systems, and intelligent agents.

PROJECTS

Virtual Desktop Assistant

- Built a desktop voice assistant using Python and APIs such as Weather API and DeepSeek API.
- Integrated speech recognition and text-to-speech modules for interactive communication.
- Implemented automation features for opening applications, web search, and command execution.

Training & Placement Dashboard

- Developed a dashboard to manage student placement records and training activities.
- Implemented placement statistics and student data visualization features.
- Designed modules for report generation and information management.

RAGbit – RAG-Based Intelligent Web Knowledge Assistant

- Developed a RAG-based AI assistant using Python and LangChain to provide context-aware answers from web data.
- Implemented web crawling, data extraction, text processing, chunking, and embedding generation for knowledge retrieval.
- Used FAISS/ChromaDB for vector-based semantic search and integrated an LLM for response generation.
- Designed a user-friendly interface for website indexing, information retrieval, and AI-based question answering.

SKILLS

Programming Languages: Python, C/C++, JavaScript, HTML, CSS

Databases: MySQL, Oracle

ML/AI Tools: TensorFlow, Keras, Scikit-learn, LangChain, CrewAI, LangGraph, OpenCV

Developer Tools: AWS, WinSCP, GitHub, VS Code, PyCharm, Google Colab

Other Skills: Problem Solving, Teamwork, Leadership, Web Development, AI Application Development
